SQUADRON IS NOT DIVIDED

RUSSIANS CLAIM THAT ALL OF ROJESTVENSKY'S WARSHIPS ARE TOGETHER.

Tokio, April 12.—It is guardedly admitted here that Admiral Togo has completed his battle organization. He has divided his fleet into three squadrons—flying, main and reserve. The flying squadron, made up of his fastest cruisers, is already scouting the China sea and will open the fighting; the main squadron, made up of most of his battleships and armored cruisers, is to follow into action; the reserve squadron, comprising the remaining battleships and cruisers, will complete the attack, if necessary, and guard against any attack in the rear.

Togo's whereabouts is known to the Japanese admiralty, but kept studiously secret, and his plan of campaign has received the imperial sanction.

SQUADRON IS INTACT

ALL OF ROJESTVENSKY'S WARSHIPS ARE ALLEGED TO BE TOGETHER.

St. Petersburg, April 12.—A dispatch received here, stating that Admiral Rojostvensky's fleet is not disunited evokes the greatest satisfaction at the admiralty, where earlier reports that the battleships were separated from the cruisers caused anxiety.

MYSTERY STILL UNSOLVED.

Whereabouts of Rojostvensky Puzzles Britons.

London, April 12.—The mystery of Vice Admiral Rojostvensky's whereabouts is still unsolved and speculations on the possibilities of the situation is of the keenest. The favorite hypothesis of the newspapers is that his six battleships slipped past Singapore some night with lights out.

The Daily Telegraph's Singapore correspondent, cabling under date of April 11, says:

"All reports to the contrary notwithstanding, only one battleship, the Sissoi Veliky, passed here Saturday. No ships of the Tsarevitch type were with the squadron."

CRUISING NEAR SOCOTRA.

Vice Admiral Nebogatoff Awaiting Reinforcements.

London, April 12.—A dispatch from Jibuti, on the Gulf of Aden, to the Daily Mail, says:

"Vice Admiral Nebogatoff's squadron has been seen cruising near Socotra. It is reported to be awaiting reinforcements from the Black sea fleet."

CHINA REFUSES REQUEST.

Declines to Lend Russia a Port in Peking.

London, April 12.—The correspondent at Kobe of the Daily Telegraph says:

"A telegram from Peking states that Russian Minister Lessar asked China to lend Russia a port in Peking (Peking), but China absolutely refused."

TO CUT COMMUNICATIONS.

Japanese Forces Marching to Isolate Vladivostok.

Gunshu Pass, Manchuria, April 12.—The thaw has been followed by a fierce gale, which has dried out the mire and is now raising a heavy dust. It is a providential change, as otherwise the troops tenting in the mud probably would soon be subject to sickness, even in epidemic form.

It is steadily becoming more evident that first calculations as to Russian losses in the battle of Mukden were exaggerated.

A portion of the Fifth rifle regiment, which was cut off at Mukden, has just arrived at Kirin, having succeeded in penetrating the Japanese lines.

Chinese state with great positiveness that General Kawamura's army, supported by General Nogai's army, is moving in a northeasterly direction to cut Russian communications with Vladivostok.

According to the same sources, 30,000 Japanese landed at Dalny March 28, and it is reported that six additional divisions are forming in Japan

to operate against Vladivostok and Sakhalin.

The Manchurian Chinese have adopted an attitude of positive hostility to the Russians. A body of 500 horsemen fired on Russian troops at the village of Chendi and Manchurian militia is said to be taking the field on the side of the Japanese on the Hun river. The leader, Fulling, has been appointed commander of the militia at Kalyuan, but a force of Chinese regulars is stationed along the border of Mongolia with the object of preserving neutrality.

The Japanese now occupy the line of Sytzyatji, Changtufu and Katpan-gomu, and the impression prevails here that the direct advance from the south has halted for the present at that line.

There were a number of skirmishes last week between Russian and Japanese scouting parties, but no action of serious consequence.

The Japanese are building depots at Simintin and Fakoman, and are said to be surveying a road from Fakoman southward and bridging the Liao river to Kaupinsan and Sintzyatun, where their commissariat is also located.

DEMOCRATIC CONSTITUTION.

Favored by Pan-Russian Congress of Attorneys at St. Petersburg.

St. Petersburg, April 12.—Another meeting of the Pan-Russian congress of attorneys was held here during the afternoon and a resolution was adopted favoring the removal of the autocratic regime and the proclamation of a democratic constitution on the basis of universal suffrage and a secret ballot.

It was announced that it is the intention of the attorneys to conduct a propaganda throughout Russia to educate the people politically and if necessary to arm them for physical resistance to arbitrary action on the part of the authorities.

It is an extraordinary fact that no arrests have followed these meetings, at which words were not minced and open defiance of the authorities was evident.

At another meeting held at night the barristers decided to cancel a clause of the resolutions in which it was proposed to furnish the people with arms to resist arbitrary acts. The meeting at night decided that such extreme action would defeat the entire object of the association.

Maxim Gorky at Yalta.

Yalta, Crimea, April 12.—Maxim Gorky and Leonide Andrieff, the radical writers who were arrested in connection with the alleged plan to establish a provincial government in place of the autocracy, have arrived here from Riga.

CRAWFORD IS GUILTY

CONVICTED OF THE MURDER OF FRED LUNDIN IN A BOXCAR AT ELK RIVER, MINN.

Elk River, Minn., April 12.—Murder in the first degree as charged in the indictment was the verdict brought in by the jury at night against C. D. Crawford, the boxcar murderer, who killed Fred Lundin here Nov. 20, 1904. Crawford listened unmoved to the reading of the verdict by Clerk Davee and as soon as court adjourned he calmly lighted a cigar and between several officers returned to his cell.

Crawford went on the stand during the morning and admitted that he killed Lundin, but claimed that the shooting was accidental, as the lurching of the boxcar in which the tragedy occurred caused him to swerve and discharge the revolver when it was pointed at Lundin's head. Crawford claimed his only purpose was to scare and rob.

THOMAS DENNISON ARRAIGNED.

Pleads Not Guilty on One Charge and Declines to Plead on Another.

Logan, Ia., April 12.—Thomas Dennison, under indictment in connection with the diamond robbery of Jeweler Pollock, was arraigned during the day on two charges. To the first, that of receiving and aiding in concealing stolen goods, he pleaded not guilty, but to the other, of complicity in the robbery, he declined to plead. The court entered a statutory plea of not guilty. Council for Dennison agreed to appear and present a petition, signed by fifty persons, for a change of venue.

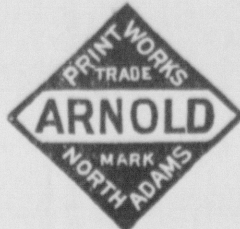

RESULT NOT MADE PUBLIC.

Prudential Committee Votes on Acceptance of Rockefeller's Gift.

Boston, April 12.—The Prudential committee of the American board of commissioners for foreign missions met during the day and took action upon the report of a subcommittee recommending the acceptance of a gift of \$100,000 from John D. Rockefeller. A vote was taken just prior to adjournment and the result of the vote will, it is stated, soon be made public. Meantime the committee is bound to secrecy.

Duluth, April 12.—Two miners, Elias Haskinson and John Skdahl, were killed and several seriously injured in a riot which occurred during the morning at the Hull-Rust mine at Hibbing, Minn., by a gang of strikers. The men were employed by the Oliver Mining company.

The situation there is critical. At 1 o'clock a. m. Sheriff Bates, accompanied by two score of armed deputies, left on a special train over the Duluth, Missabe and Northern for Hibbing to quell the riot which, according to report, has broken out among the miners employed in a number of other mines. CONFERENCE ENDS IN FAILURE.

Attempt to Settle Strike in Chicago Proves Futile.

Chicago, April 12.—Offering to arbitrate everything in connection with the Montgomery Ward & Co. strike with the exception of the garment workers' grievances, a committee of the Commercial Exchange, an organization of Chicago employers, deadlocked with representatives of the Chicago Federation of Labor and the Joint Teamsters' unions at the Grand Pacific hotel in the afternoon. The meeting adjourned with no peace in sight. The union labor committee, fresh from a conference with Mayor Dunne, set forth emphatically that the teamsters were out in sympathy with the garment workers only and that if the grievances of the garment workers were not to be considered there was nothing to arbitrate.

It is charged that the wholesale tailor manufacturers' association had entered into a conspiracy to bring back former sweatshop conditions among the garment workers and that the conspiracy had been successful in New York, Rochester and Philadelphia and was being pushed in Chicago. Another conference will be held.

WILL EXTEND HIS STAY.

President Roosevelt Hugely Enjoying His Wolf Hunt.

Lawton, O. T., April 12.—President Roosevelt has seen John Abernathy, a well known wolf catcher, in his unique way kill a coyote. Abernathy's favorite dog, "Cannon Ball" led the

first big race of the four days' race event Monday morning and captured a wolf in the chase. Abernathy leaped from his horse and with heavily gloved hands seized the prostrate animal's jaws, lifted it in his arms and delivered it to the president.

That the president is enjoying every hour of his recreation is evident by the fact that he has expressed a desire to remain in the pasture until Saturday evening, thus extending his allotted time two days. Should he so resolve his special train will be detained in Fort Worth until Saturday morning. It is only in the afternoon that the cowboys coming out of the reservation bring reports of maneuvers of the president's party.

ENTERS PLEA OF ABATEMENT.

Senator Mitchell Pleads to Indictments in Portland, Ore.

Portland, Ore., April 12.—Judge Bellingher's court was crowded when the time arrived for Senator John H. Mitchell to plead to four indictments found against him by the late federal grand jury.

In a plea of abatement Senator Mitchell criticizes the acts of the late federal grand jury by charging specifically that Jurors W. Robertson and Carl Phelps, the original foreman and secretary respectively, had been illegally excused for the term pending the investigation, that Jurors Frank G. Buffum and G. R. Pebler had been drawn in some time after the grand jury had been empanelled; that Juror George Justin was not a citizen of the United States; that Jurors Frank Rolter and George Essner were not taxpayers, as required by law, and that District Attorney Heney was disqualified in many ways, besides being prejudiced.

The plea of abatement was based upon the case wherein Senator Mitchell is accused of accepting pay through the law firm of Mitchell & Tanner to expedite land titles before the land department at Washington in behalf of Frederick A. Kribs.

A demurrer was first filed, after a stipulation between the government and council for the defense that the plea in abatement should not be waived by the filing of the demurrer.

Judge Alfred S. Bennett, as attorney for Senator Mitchell, announced that there was a question of moral turpitude involved in the case wherein Senator Mitchell is accused of accepting \$2,000 from S. A. D. Puter and therefore he would waive all legal technicalities and be ready to proceed to trial without delay upon the issues at stake.

Judge Bennett entered a plea of not guilty for the senator in three of the cases against him, two for conspiracy under section 5440 of the revised statutes and one under section 1782 for accepting money while holding the position of United States senator to expedite the titles before the land department.

Secretary Wilson Says Farmers Are Spoiling the Land.

Washington, April 12.—When James Wilson, secretary of agriculture, was asked, "do you think the time is near at hand when the United States will cease to raise wheat enough to supply our own people with all the bread they need?" he replied:

"We can raise two or three times as much wheat as we need, for there is now practically no limit to the amount we can produce. But we have yet to learn the most economical use of the land. There must be some regard to rotation of crops, or the home demand for bread may exceed the home product. They are robbing the land now; raising wheat year after year on the same tract, until it fails to produce a big yield, and then moving on to new lands farther west."

ARRIVE IN NEW YORK CITY.

J. Morgan Smith and His Wife Taken to Police Headquarters.

New York, April 12.—J. Morgan Smith and his wife, who have been indicted, together with Nan Patterson, on a charge of conspiracy to obtain money from "Caesar" Young, the bookmaker, in connection with whose death the Patterson girl is also under indictment and is about to be tried a second time, arrived in this city at night. Smith and his wife were arrested in Cincinnati, where they abandoned their fight against extradition. The Smiths are now held at police headquarters.

ENTERS PLEA OF ABATEMENT.

Senator Mitchell Pleads to Indictments in Portland, Ore.

Portland, Ore., April 12.—Judge Bellingher's court was crowded when the time arrived for Senator John H. Mitchell to plead to four indictments found against him by the late federal grand jury.

In a plea of abatement Senator Mitchell criticizes the acts of the late federal grand jury by charging specifically that Jurors W. Robertson and Carl Phelps, the original foreman and secretary respectively, had been illegally excused for the term pending the investigation, that Jurors Frank G. Buflum and G. R. Pehler had been drawn in some time after the grand jury had been empaneled; that Juror George Justin was not a citizen of the United States; that Jurors Frank Rolter and George Essner were not taxpayers, as required by law, and that District Attorney Heney was disqualified in many ways, besides being prejudiced.

The plea of abatement was based upon the case wherein Senator Mitchell is accused of accepting pay through the law firm of Mitchell & Tanner to expedite land titles before the land department at Washington in behalf of Frederick A. Kribs.

A demurrer was first filed, after a stipulation between the government and council for the defense that the plea in abatement should not be waived by the filing of the demurrer.

Judge Alfred S. Bennett, as attorney for Senator Mitchell, announced that there was a question of moral turpitude involved in the case wherein Senator Mitchell is accused of accepting \$2,000 from S. A. D. Puter and therefore he would waive all legal technicalities and be ready to proceed to trial without delay upon the issues at stake.

Judge Bennett entered a plea of not guilty for the senator in three of the cases against him, two for conspiracy under section 5440 of the revised statutes and one under section 1782 for accepting money while holding the position of United States senator to expedite the titles before the land department.

MUST ROTATE THEIR CROPS.

Secretary Wilson Says Farmers Are Spoiling the Land.

Washington, April 12.—When James Wilson, secretary of agriculture, was asked, "do you think the time is near at hand when the United States will cease to raise wheat enough to supply our own people with all the bread they need?" he replied:

"We can raise two or three times as much wheat as we need, for there is now practically no limit to the amount we can produce. But we have yet to learn the most economical use of the land. There must be some regard to rotation of crops, or the home demand for bread may exceed the home product. They are robbing the land now; raising wheat year after year on the same tract, until it fails to produce a big yield, and then moving on to new lands farther west."

ARRIVE IN NEW YORK CITY.

J. Morgan Smith and His Wife Taken to Police Headquarters.

New York, April 12.—J. Morgan Smith and his wife, who have been indicted, together with Nan Patterson, on a charge of conspiracy to obtain money from "Caesar" Young, the bookmaker, in connection with whose death the Patterson girl is also under indictment and is about to be tried a second time, arrived in this city at night. Smith and his wife were arrested in Cincinnati, where they abandoned their fight against extradition. The Smiths are now held at police headquarters.

HARRIMAN IS DROPPED.

Fails of Re-Election as Director of Northern Securities Company.

New York, April 12.—The annual meeting of the stockholders of the Northern Securities company in Hoboken elected five directors, of which Amos T. French is a new member. Mr. French is a director of the Chicago, Indianapolis and Louisville Railway company. Robert Bacon, D. Willis James, John S. Kennedy and Edward T. John were re-elected directors. Officials who announced the result of the election declined to say who retired from the board of directors to give place to Mr. French.

Although those present at the meeting declined to say what director of the company they retired to give place to Mr. French it was currently reported in the financial district without denial that E. H. Harriman was the director who failed to be re-elected. Vice President and General Counsel Clough of the company declined to give information on the subject.

SENATE BREAKS ITS RECORD.

Passes Twenty-five Measures in One Day.

The senate passed twenty-five bills Tuesday, breaking its record for the session. The session was characterized by little debate and frequent roll calls on bills. Two of these bills were introduced Tuesday.

Mark B. Dunnell is appointed commissioner to edit and annotate the revised laws of 1905 through the provisions of S. F. 519 by Senator Wilson, introduced Tuesday and passed under suspension of the rules. The bill appropriates \$5,000, of which the commissioner is to receive \$3,500 and \$1,500 remains for clerkhire and expenses. The supreme court is authorized to fill any vacancy. The commissioner is authorized to include in the same volume with the revised laws the federal and state constitutions and the organic act of Minnesota.

S. F. 520, introduced by Senator Wilson and also passed under the suspension of the rules, provides for printing, binding and distributing of the revised laws. It makes the attorney general, secretary of state and the state printer a special commission for this purpose. This commission may fix the price at which the volumes may be sold, not to exceed \$5 per volume, to citizens of this state.

North Dakota brought fraternal greetings to the legislature of Minnesota Tuesday. Governor E. Y. Sarles and the members of the new state capital commission had come down to inspect the Minnesota capitol. They called on Governor Johnson, and were then invited to visit both houses. Governor Sarles spoke briefly in each house, and Governor Johnson made a brief speech to the house members.

DR. A. W. CHASE'S NERVE PILLS

The man who hesitates, whose eye is dull, whose step is slow, whose mind is sluggish, whose hands tremble, is not the man whom an employer seeks. It is the bright man, the man with the clear eye and brain; the active man, full of energy, life and vigor, whose very manner and presence breeds success; that is sought for and snapped up as soon as seen, and it seems almost pitiful that first class, victims of success of some sort, should exist, when it needs but a thorough course of Dr. A. W. Chase's Nerve Pills to round them into the old-time feeling of physical, intellectual and manly vigor again.

Mr. Fred Hoyt of No. 724 6th Ave., New Brighton, Pa., says:

"I used to have a hard steady I could write the Lord's prayer on a twenty-five cent piece—then as a result of overwork and overstrain my eyes gave out and my hands and nerves generally became trembly. I was restless and could not sleep. I certainly was in bad shape and lost my ability to write. I could just scrawl. I heard of Dr. A. W. Chase's Nerve Pills and got some and they took hold immediately. I began to sleep—gain strength—my nerves grew steady—and my eyesight improved greatly. Today I feel finely and can again write as well as ever, and that means a very steady nerve." 50c a box at dealers or Dr. A. W. Chase Medicine Company, Buffalo, N. Y. Portrait and signature of A. W. Members of Upper Mississippi Valley Medical Society Met at Ransford Last Night

WAS AN ENTHUSIASTIC MEETING

Was the Best Meeting Ever Held Since the Organization of the Society

The meeting of the Upper Mississippi Valley Medical society which was held in this city was largely attended and was the best since the organization of the society. There were about fifteen visitors present besides the members of the local contingent.

An excellent program had been prepared which was given in the parlor of the Ransford. Dr. J. A. Thabes and Dr. O. T. Batcheller, both of this city, read papers and Dr. Walter Courtney, of the N. P. Sanitarium gave a talk. All were interesting and highly spoken of by the members.

Immediately following the program a banquet was served in the spacious dining room of the Ransford, and the service was excellent, and both the menu and the appointments were highly praised.

The following program was rendered by the Elk's orchestra while the banquet was being served:

March, "U. M. V. M. A. . . . Dr. Conterno Medley Waltz, "In the Shade of the Old Apple Tree" Chattaway Novellette, "What's the Matter with My Man in the Moon" From "The Royal Chef"

Idyle, "Smiles and Caresses" Theo. Bendix Patrol, "Indiana" B. Hartz Waltz, "Down at the Baby Store" Von Tilzer Intermezzo, "Ingomar" C. J. Permy March, "The American" Morse

The following doctors were present from out the city: Coulter and McKinnon, Wadena; Lathane, Hewitt; Whyte, of Bertha; Collier, of Minneapolis; Millsbaugh, Roberts and Holtz, of Little Falls; Belsham and George, of Aitkin; Schafer, of Motley; Boehm and Dunn of St. Cloud.

Nettleton Rents and Sells Houses.

Cleanse your system of all impurities this month. Now is the time to take Hollister's Rocky Mountain Tea. 35 cents, tea or tablets. H. P. Dunn & Co.

Electric Show.

There will be an electric show each evening during the summer months at Gardner hall. Moving pictures, illustrated songs, etc., etc., comprise the program and they afford a very pleasant evening of enjoyment. There is nothing immoral about the show and the prices are within the reach of all, 10 and 15 cents. 1f

Ladies' dresses, jackets, skirts, silks, velvets, of all description, drycleaned by P. M. ZAKARIASEN.

ONLY ONE

The Record in Brainerd is a Unique One.

If the reader has a "bad back" or any kidney ill and is looking for relief and cure, better depend on the only remedy endorsed by people you know. Doan's Kidney Pills relieve quickly—cure permanently. Brainerd citizens testify to this. Here is a case of it:

James Parker, carpenter, of 124 2nd Ave. N. E., Brainerd Minn., says: "Every winter since I had the gripe I was unable to shake off its effects. My back commenced to pain me across the kidneys with a numb sort of aching which I felt always over the same spot even when I lay in bed. I was also troubled from my kidneys. I got a box of Doan's Kidney Pills and used them. Since then I have been in much better health, have no more attacks of headache and no more backache and I regard it as quite wonderful that any remedy could bring about such a change."

On October 18, 1904, six years after Mr. Parker made the above statement, the testimony was confirmed by Mrs. Parker. She said: "Mr. Parker's statement was true in every particular, and we both feel that Doan's Kidney Pills can be relied upon to cure every form of kidney trouble. We are always glad to advise sufferers to go to H. P. Dunn & Co.'s drug store for Doan's Kidney Pills and give them a trial."

Burned House and Contents.

A house owned by a Minneapolis gentleman and occupied by Mrs. Peter Abear on the Pine River road, a short distance above the Joe Kutz place, was totally destroyed by fire a few nights ago together with all the contents. Mrs. Abear has lived in the place for some time and kept a stopping place, but on the night in question the only other person in the house was one of the neighbors' little girls and they were awakened about midnight to find the dwelling in flames and hastily made their exit through the bed room window clad only in their night clothes and barely escaping with their lives. All the clothing, furniture and provisions belonging to the family was consumed. It is stated that there was an insurance of \$300 or \$400 on the contents which was carried in the Farmers' Mutual Insurance Co., of Klondyke, this county.

The Edwards-Woods Co.'s grain office in this city has been closed for the summer and Manager F. T. Schuffelbottom and family will leave for Minneapolis at St. Cloud. The offices of the company at St. Cloud, Little Falls and Sauk Centre have also been closed. Slack business is ascribed as the cause for this move, but it is not unlikely that some legislation this winter bearing on this particular business may have something to do with the closing of the offices.

The Record in Brainerd is a Unique One.

If the reader has a "bad back" or any kidney ill and is looking for relief and cure, better depend on the only remedy endorsed by people you know. Doan's Kidney Pills relieve quickly—cure permanently. Brainerd citizens testify to this. Here is a case of it:

James Parker, carpenter, of 124 2nd Ave. N. E., Brainerd Minn., says: "Every winter since I had the gripe I was unable to shake off its effects. My back commenced to pain me across the kidneys with a numb sort of aching which I felt always over the same spot even when lying in bed. I was also troubled with headache which I think arose from my kidneys. I got a box of Doan's Kidney Pills and used them. Since then I have been in much better health, have no more attacks of headache and no more backache and I regard it as quite wonderful that any remedy could bring about such a change."

On October 18, 1904, six years after Mr. Parker made the above statement, the testimony was confirmed by Mrs. Parker. She said: "Mr. Parker's statement was true in every particular, and we both feel that Doan's Kidney Pills can be relied upon to cure every form of kidney trouble. We are always glad to advise sufferers to go to H. P. Dunn & Co.'s drug store for Doan's Kidney Pills and give them a trial.

Burned House and Contents.
A house owned by a Minneapolis gentleman and occupied by Mrs. Peter Ahear on the Pine River road, a short distance above the Joe Kutz place, was totally destroyed by fire a few nights ago together with all the contents. Mrs. Ahear has lived in the place for some time and kept a stopping place, but on the night in question the only other person in the house was one of the neighbors' little girls and they were awakened about midnight to find the dwelling in flames and hastily made their exit through the bed room window clad only in their night clothes and barely escaping with their lives. All the clothing, furniture and provisions belonging to the family was consumed. It is stated that there was an insurance of \$300 or \$400 on the contents which was carried in the Farmers' Mutual Insurance Co., of Klondyke, this county.

SCHOOL QUESTION WAS DISCUSSED

At the Meeting of the Commercial Club in Elk Hall Last Night by Members

OTHER BUSINESS TRANSACTED

Committee Recommends that the Board of Directors Engage McFadden Rooms.

There was a meeting of the Commercial Club last evening in Elk hall and in the absence of President O'Brien, Vice President Cohen presided over the deliberations. There was quite a good attendance and many matters of importance came up for consideration, but the matter given the most time was the school question which was gone over in all its phases.

After the reading of the minutes by Secretary McKay the reports of committees were called for. The first to report was the public affairs committee, R. R. Wise chairman. He reported that the Sax factory, the owners of which had thought to move to Brainerd for the manufacture of shirts and underwear, would not in all probability move here. The company employs about two hundred people and would have been a valuable addition to the commercial interests of the city.

The next committee to report was the county, schools and city. Henry I. Cohen is chairman of this committee and he read a very lengthy and exhaustive report, going into the question of expenses in the city schools from alpha to omega and suggesting remedies. Chairman Cohen, after reading the report, told of the experience the committee of the Commercial Club encountered with the board of education. A committee was appointed from the board of education to meet with the Commercial Club and they got together and discussed the school question and it was finally decided that the Commercial Club committee submit a report to the full board of education, which was done. Mr. Cohen stated that the report was simply received and placed on file without discussion. This naturally was not relished by the committee. After the reading of the report Mr. Cohen asked for expressions from the members present and there were expressions galore.

The report contained the information that a levy of \$45,095 had been asked for school purposes next year and one of the points brought out by Mr. Cohen, and one which he wished to be enlightened upon, was in reference to the additional amount the board would receive from the state. This would be about \$11,000, he thought, and the committee had asked the board why the levy of \$45,095 had been made when it was known that the \$11,000 would be received. The only answer to this question was that there were holes in the furnaces in the different schools that a man could stick his arm through.

The question brought up in this manner naturally called for considerable discussion. For a time no one seemed to want to say anything as they deemed it a delicate subject probably, but the ice was broken when Attorney A. T. Larson arose and stated that as far as he was concerned he was not afraid to express his opinion on the matter.

Attorney Larson suggested that a body of men should have a definite purpose in view in handling such matters

and if there was a misappropriation in the city schools or an excess of expenditure of money the only remedy was to work to one end and that was to elect men on the board who are not afraid to get up and stand for what they think is right. He thought the schools of the city were not what they ought to be, especially the high school; that the relation between the pupils of the high school and the superintendent were not such as would bring about good results. This is especially true of the boys, Mr. Larson thought. The next moment the speaker said that he believed the schools of the city were well equipped with good intelligent principals and he believed that so far as the superintendent was concerned he was not needed at all.

G. D. LaBar spoke on the question and said that there was no doubt but that the expenses in the schools were running too high, and especially now as there would be a reduction in taxation on account of the Brainerd Lumber company mill going out. He thought something should be done to have the levy reduced in view of the fact that the board would get something like \$12,000 from the state in addition to the levy made.

James Cullen had read about the election of the teachers and he thought the board did not use good judgment in electing thirteen teachers for the Lowell and Mill schools, when the population in that ward had been reduced over 150 people. He did not see for the life of him what thirteen teachers would do in that ward. He also spoke of the dry closet system and his experience as a member of the board when the system was installed gave him an opportunity to become familiar with the subject.

J. C. Congdon was present and claimed that he was outside the "ring" but didn't know whether it was good policy anyway to come to the meeting and air matters relative to the school board. But he finally let loose and made some statements which would imply that Supt. Hartley is the whole thing and that the school board has nothing to say regarding the expenditure of money. Someone asked if they had a purchasing committee. Mr. Congdon replied that they did and that they also had a text book committee, but neither these committees nor the board knew about any purchase of books, etc., until the bills came in. He suggested that it might be better not to elect a member to the board at all, but let the superintendent run the whole thing. Mr. Congdon spoke at length and made some pretty plain statements.

W. H. Cleary spoke and said if, as Mr. Congdon had stated, there was a condition of this kind matters should be investigated.

M. J. Reilly stated that with all due respect for Mr. Congdon and the other members of the board he believed that Mr. Hartley was thoroughly competent and that he was really the man who should make these purchases.

Attorney Ryan thought that Attorney Larson's scheme to throw the whole thing into politics was not a proper one and suggested that if the club wanted something could be done immediately.

After a great deal more talk on the subject, a motion was made that the report of the committee be accepted and filed and that the club proceed with the next order of business. The motion prevailed and the school matter was dropped.

R. R. Wise, as chairman of the public affairs committee, reported that the telephone matter was now in the courts.

F. A. Farrar, chairman of the house and entertainment committee, reported that the rooms on the second floor in the McFadden block had been looked over and the committee decided to recommend that they be rented for Commercial Club purposes. A motion prevailed that these rooms be recommended to the board of directors.

W. H. Cleary stated that it was a little early to report on the matter of furnishing the farmers with seed potatoes, but he thought he would have something more interesting to report at the next meeting.

It does more than that.

PINE RIVER DAM TO BE REBUILT

Government Calls for Bids for Hauling Five Hundred Tons of Material to the Site

A SOLID CONCRETE STRUCTURE

Arrangements are Now Being Made to Commence Active Work This Season

The government dam on Pine River near Cross Lake is to be rebuilt and active work will commence on the same the present season. The old structure which was built many years ago to control the waters of Pine river and its tributaries has practically outlived its usefulness and although it still performs the functions for which it was constructed it is in very bad condition, the timbers being decayed and the entire works are in a condition that require a general overhauling and the government has decided to replace it with a solid concrete and steel structure that will withstand the wear and tear of the elements and hold the waters of the big reservoir in subjection for all time to come. During the last session of congress a sum sufficient to cover all the expense incident to the reconstruction was appropriated and it will be but a short time until the place will be one of unusual activity as it is expected that from 150 to 250 men will be employed at times on the work and the rebuilding will extend over a period of from two to three years. Advertisements for bids are out for the hauling of 500 tons of building material, stone crushers, pile drivers, and other necessary equipment to start the work, from Jenkins to the dam, a distance of fifteen or eighteen miles, one piece weighing nine tons and several of which weigh six tons each. This amount of material is said to be but a starter for the gigantic piece of masonry that will be erected and from time to time as the work progresses other large shipments will be received. Buildings will have to be erected to house much of the material and to take care of the large number of workmen that will be employed on the job, including boarding houses, etc. These of course will only be temporary structures but as it will require considerable time to get them ready for occupancy and to freight the material to its destination it will probably delay actual work on the dam proper well into the summer. The big timbers to be used will be Washington fir and they have already been shipped from that state. The old dam is nearly 300 feet in length and is about 20 feet high there being thirteen gates through which the water is released as occasion requires. Just what the measurement of the new structure will be has not yet been determined nor will it be until the assistant engineer, Thos. Robertson, arrives on the ground and makes the survey which he is expected to do within the next two weeks. It is expected, however, that the new dam will be constructed so that a larger volume of water can be held than in the past and this will necessitate considerable work on the dikes that are built in the vicinity to hold the water and keep it from finding a new channel to the Mississippi river when the gates are closed. The work will be done under direction of Major Geo. McDerby, of St. Paul, and Asst Supt. Robertson will have immediate charge of the construction.

The contemplated improvement has already commenced to attract the attention of outside people and a general store is about to be opened near the works by Chas. Heath, the building having already been erected.

Neil McKay who is in charge of the dam and who has had care of the same for some years will continue in a like capacity when the new structure is completed but during the time the same is being built it is altogether probable that he will be given charge of the government dam either at Leech lake or Sandy lake, returning to his old post of duty when the work of construction is completed. Mr. McKay's services during all the years that he has had charge of the work in connection with the reservoir and dam has been highly satisfactory to the government and it is only owing to the fact that an experienced man is needed at one of the other places that the temporary change is contemplated, but nothing definite has been given out regarding the matter. The many friends of Mr. McKay and his estimable family in this city and up the Pine river road will be sorry to learn that even a temporary change is thought of for their hospitality is well known to all who have traveled up into the pines of Northern Minnesota by that route, and the man who has not enjoyed a meal at their table and a night's rest under their roof has missed a rare treat as the writer can well testify.

Have your suits and over coats dry cleaned they will look like new. P. M. ZAKARIASEN.

Arrangements are Now Being Made to Commence Active Work This Season

The government dam on Pine River near Cross Lake is to be rebuilt and active work will commence on the same the present season. The old structure which was built many years ago to control the waters of Pine river and its tributaries has practically outlived its usefulness and although it still performs the functions for which it was constructed it is in very bad condition, the timbers being decayed and the entire works are in a condition that require a general overhauling and the government has decided to replace it with a solid concrete and steel structure that will withstand the wear and tear of the elements and hold the waters of the big reservoir in subjection for all time to come. During the last session of congress a sum sufficient to cover all the expense incident to the reconstruction was appropriated and it will be but a short time until the place will be one of unusual activity as it is expected that from 150 to 250 men will be employed at times on the work and the rebuilding will extend over a period of from two to three years. Advertisements for bids are out for the hauling of 500 tons of building material, stone crushers, pile drivers, and other necessary equipment to start the work, from Jenkins to the dam, a distance of fifteen or eighteen miles, one piece weighing nine tons and several of which weigh six tons each. This amount of material is said to be but a starter for the gigantic piece of masonry that will be erected and from time to time as the work progresses other large shipments will be received. Buildings will have to be erected to house much of the material and to take care of the large number of workmen that will be employed on the job, including boarding houses, etc. These of course will only be temporary structures but as it will require considerable time to get them ready for occupancy and to freight the material to its destination it will probably delay actual work on the dam proper well into the summer. The big timbers to be used will be Washington fir and they have already been shipped from that state. The old dam is nearly 300 feet in length and is about 20 feet high there being thirteen gates through which the water is released as occasion requires. Just what the measurement of the new structure will be has not yet been determined nor will it be until the assistant engineer, Thos. Robertson, arrives on the ground and makes the survey which he is expected to do within the next two weeks. It is expected, however, that the new dam will be constructed so that a larger volume of water can be held than in the past and this will necessitate considerable work on the dikes that are built in the vicinity to hold the water and keep it from finding a new channel to the Mississippi river when the gates are closed. The work will be done under direction of Major Geo. McDerby, of St. Paul, and Asst. Supt. Robertson will have immediate charge of the construction.

The contemplated improvement has already commenced to attract the attention of outside people and a general store is about to be opened near the works by Chas. Heath, the building having already been erected.

Neil McKay who is in charge of the dam and who has had care of the same for some years will continue in a like capacity when the new structure is completed but during the time the same is being built it is altogether probable that he will be given charge of the government dam either at Leech lake or Sandy lake, returning to his old post of duty when the work of construction is completed. Mr. McKay's services during all the years that he has had charge of the work in connection with the reservoir and dam has been highly satisfactory to the government and it is only owing to the fact that an experienced man is needed at one of the other places that the temporary change is contemplated, but nothing definite has been given out regarding the matter. The many friends of Mr. McKay and his estimable family in this city and up the Pine river road will be sorry to learn that even a temporary change is thought of for their hospitality is well known to all who have traveled up into the pineries of Northern Minnesota by that route, and the man who has not enjoyed a meal at their table and a night's rest under their roof has missed a rare treat as the writer can well testify.

Have your suits and over coats dry cleaned they will look like new.

complies with the pure food laws of all states. Food prepared with it is free from Rochelle salts, lime, alum and ammonia.

Trust Baking Powders sell for 45 or 50 cents per pound and may be identified by this exorbitant price. They are a menace to public health, as food prepared from them contains large quantities of Rochelle salts, a dangerous cathartic drug.

Conviction Follows Trial

When buying loose coffee or anything your grocer happens to have in his bin, how do you know what you are getting? Some queer stories about coffee that is sold in bulk, could be told, if the people who handle it (grocers), cared to speak out.

Could any amount of mere talk have persuaded millions of housekeepers to use

Lion Coffee,

the leader of all package coffees for over a quarter of a century, if they had not found it superior to all other brands in Purity, Strength, Flavor and Uniformity?

This popular success of LION COFFEE can be due only to inherent merit. There is no stronger proof of merit than continued and increasing popularity.

If the verdict of MILLIONS OF HOUSEKEEPERS does not convince you of the merits of LION COFFEE, it costs you but a trifle to buy a package. It is the easiest way to convince yourself, and to make you a PERMANENT PURCHASER.

LION COFFEE is sold only in 1 lb. sealed packages, and reaches you as pure and clean as when it left our factory.

A HAPPY MOTHER

WEATHERFORD, TEXAS.
May 14, 1903.

Before my baby was born I was in great misery. I was just able to be about but just as soon as I began to take Wine of Cardui, which had been recommended to me, I felt much better. In fact I feel that if it had not been for this medicine I would not have been strong enough to live through childbirth. But that was made comparatively easy by taking your medicine for four months before baby came. Wine of Cardui restored my health as I took it two months afterward. I cannot speak too highly of Wine of Cardui and I am glad to endorse it.

Mrs. E. E. Wood
TREASURER, YOUNG MATRONS CLUB.

Wine of Cardui is a powerful tonic which acts on the generative organs of women, regulating menstruation and giving tone and strength to the organs which inflammation and weakness have affected. It cures nineteen out of every twenty cases of bearing-down pains or ovarian trouble.

Wine of Cardui cures barrenness and aids the mother in conserving her strength for the ordeal of childbirth. After that event the Wine prevents dangerous flooding and helps mothers to quick recovery. Wine of Cardui is the one medicine a mother should use before and after childbirth.

All druggists sell \$1.00 bottles Wine of Cardui.

WILL NOT ARBITRATE

PRESIDENT OF VENEZUELA RE-PLIES TO REQUEST OF THE UNITED STATES.

REFUSAL IS MOST EMPHATIC

STATEMENT BY FOREIGN SECRETARY REFLECTS SPIRIT OF CASTRO'S REPLY.

Caracas, Venezuela, April 12.—"President Castro will not withdraw the New York and Bermudez Asphalt company case from the Venezuelan courts and will not resubmit the Olcott case to arbitration if the whole American army and navy come to Venezuela."

This emphatic statement of General Alejandro Ybarra, the Venezuelan secretary of foreign affairs, reflects the spirit of the reply which President Castro made to the recent proposal of the American state department for the arbitration of the Bermudez and Olcott cases.

It was generally rumored through out Venezuela that the demands of the United States was little less than an ultimatum to General Castro and the reply of the Venezuelan president was awaited with interest. Predictions of intervention following the refusal of Castro to yield were freely made and there was much uneasiness when it was announced that the Venezuelan government had not only refused to arbitrate the case, but had supplemented its refusal with a request that the United States declare whether it has any respect for the sovereignty and the courts of Venezuela.

No Further Demands Made.

Nearly two weeks have passed since Castro made his reply, and as no action has been taken by the United States and no further demands have been made the last demand of the United States has gone the way of many previous requests for arbitration and the incident is practically closed as far as its discussion in Caracas is concerned.

The Olcott case, the arbitration of which the United States seeks to have reopened, is also known as the Orinoco Steamship company case, and was arbitrated by a mixed commission in 1903. Commissioner Bainbridge and Grisanti, representing the United States and Venezuela respectively, disagreed and the umpire, Henry Barge, decided the case, allowing the company \$28,225 on a claim of \$1,401,568.

President Castro and his advisors claim that to reopen the case would be an insult to Holland, as Mr. Barge, who acted as umpire, is a well known Dutch diplomat. They also hold that as Venezuela was denied the right to have the arbitration of the Belgian waterworks case reopened none of the other cases settled under the Washington protocols shall be reconsidered.

It is emphatically denied in the reply of President Castro that there are any claims pending between the United States and Venezuela. He again reiterates that the New York and Bermudez Asphalt case now in the Venezuelan courts is a national and not an international one.

KEEN INTEREST EXISTS.

Washington Diplomats Agitated Over Castro's Answer.

Washington, April 12.—Throughout the diplomatic corps keen interest exists regarding the sensational answer which President Castro is said to have made to Minister Bowen's latest request for arbitration of the pending questions between the United States and Venezuela. Although Venezuelan legation officials say the text of the dispatch was not included in the mail reaching the legation during the day, and which left Caracas after the answer was delivered to Mr. Bowen, it has become noised among diplomats that the answer was undiplomatic and almost threatening in wording. The knowledge possessed by certain diplomats on the subject here indicates clearly that the character, if not the exact text of the answer, has been known for some time to the diplomatic corps in Caracas and there is reason to believe that several foreign governments already have been advised of its text.

While diplomats who have inquired at the state department have been informed that practically no action will be taken regarding Venezuela until President Roosevelt returns from his Western trip, they also have received the intimation that if the exact text of Castro's answer comprises an insult to the American minister it will not pass unnoticed.

RULING AFFECTS NEWSPAPERS.

Mailing Rates on Certain Supplements to Be Changed.

Washington, April 12.—Third Assistant Postmaster General Madden has notified all postmasters to refuse to grant second class rates on and after Sept. 1, 1905, on supplements to newspapers which consist of calendars, sheet music, patterns, blocks of postal cards, series of cut out animal pictures, masks, plastographs, dolls, soldiers, vessels, circulars, handbills, special detached advertisements, etc. The character of the matter will thereafter determine the postage rate.

SAPPING ECONOMIC LIFE.

Miss L. A. Mead Says That is the Effect of Armed Peace.

Washington, April 12.—At the day's session of the National Council of Women, Miss Lurcia Ames Mead, president of the Massachusetts Equal Suffrage association, declared that international disputes or armed peace, as she called it, is sapping the economic life of the world. This remark prompted the Rev. Anna Shaw of the National Woman's Press association, to observe that boys and girls should be taught a love of peace and not a love of fighting. Miss Mead also said that she would not let boys sing "The Army and Navy Forever." This remark was taken up immediately by Mrs. Flo Jenson Miller, who declared she believed in singing patriotic songs and believed in peace even if it was necessary to fight for it. The delegates loudly applauded this sentiment.

Addresses were made by Susan B. Anthony, May Wright Sewall, Mrs. Robert Thompson and Mrs. N. Coe Stewart.

STEAMER HELD IN QUARANTINE.

Captain and Some of the Crew Afflicted With Peculiar Malady.

New York, April 12.—A peculiar malady of which extremely high temperature seems to be the only distinguishing feature has been called to the attention of the health authorities here upon the arrival of the British steamer Osceola from River Plate, Para and Barbados. Captain McLean and three members of his crew were ill when the steamer arrived. All the sick men had exceedingly high temperatures but the physicians were unable to determine the exact nature of the illness. When it was learned that one man had died and was buried at sea, another stricken with the peculiar illness had committed suicide by jumping overboard and two others had been sent to hospitals at Barbados, it was decided to hold the Osceola at quarantine.

TRUNKS YIELD EVIDENCE.

Beef Trust Investigation May Become Wider in Scope.

Chicago, April 12.—An investigation by the federal grand jury, which is inquiring into the working methods of the alleged beef trust, of a much deeper nature and of a wider scope, it is asserted, is to result from the examination of the contents of the eight trunks taken Monday from the safety vaults in the First National bank building. When these trunks were opened it is said that the secret transactions of the Aetna Trading company, a corporation through which the secret business of the big packers was transacted, was revealed to the jurors and as a consequence many new witnesses will be subpoenaed. The trunks and contents have been impounded on an order by Judge Sanborn so that no one by legal process can obtain possession of them.

Among the names of the new witnesses subpoenaed during the day is said to be that of G. H. Godfrey, alleged secretary and treasurer of the Aetna Trading company, and R. H. Cowan, another official of the company. The initials R. H. C. appear on each of the eight trunks taken from the depository vaults and it is believed they belong to Cowan. It is asserted that Godfrey and Cowan left Chicago the day the investigation by the jury began. They have been traced to Toronto, Can., where it is said all trace of them was lost.

Delevan Frazee, manager for the National Packing company, was one of the most important witnesses before the jury during the day. He was on the stand for nearly two hours.

Another witness who testified was J. A. Howard, connected with a New York packing firm.

INVESTIGATION IS BEGUN.

Commissioner Garfield Starts Inquiry Into Standard Oil Company.

Topeka, Kan., April 12.—James R. Garfield, commissioner of corporations, started his work of investigating the Standard Oil company in Kansas during the day. Three special agents of the department are here with Mr. Garfield. They are going through the records in the offices of the secretary of state, gathering data regarding the various oil companies doing business in the state. Charles Earl, one of the agents, held a conference with Governor Hoch during the day, at which various methods for securing information were touched upon.

Commissioner Garfield and United States Attorney Dean will also hold a prolonged conference. The federal grand jury is in session.

It Cures the Liquor Habit

Orrine is the only perfectly successful cure for the liquor habit the world has ever known. It is better than institutes or sanitariums, because it is used at home and does not interfere with the daily work; better than will-power because it never fails. It strengthens the nerves and gives good appetite, regulates digestion and makes you sleep like a child.

Orrine No. 1 will cure the hardest drinker and destroy his craving for drink without his knowledge, as it can be given secretly in tea, coffee or food. Orrine No. 2, in pill form, is for those who wish to be cured. The cost of either is \$1 per box. Orrine has the endorsement of ministers and physicians. It is the one remedy for the liquor habit that can be relied upon to cure at little expense and restore the drunkard to perfect vigor of manhood. Write to the Orrine Company, Inc., Washington, D. C., for book on "Drunkenness," sent free in plain envelope. Call on H. P. Dunn & Co., Central drug store, Nat'l bank block, Brainerd, Minn.

RULING AFFECTS NEWSPAPERS.

Mailing Rates on Certain Supplements to Be Changed.

Washington, April 12.—Third Assistant Postmaster General Madden has notified all postmasters to refuse to grant second class rates on and after Sept. 1, 1905, on supplements to newspapers which consist of calendars, sheet music, patterns, blocks of postal cards, series of cut out animal pictures, masks, postgraphs, dolls, soldiers, vessels, circulars, handbills, special detached advertisements, etc. The character of the matter will thereafter determine the postage rate.

SAPPING ECONOMIC LIFE.

Miss L. A. Mead Says That is the Effect of Armed Peace.

Washington, April 12.—At the day's session of the National Council of Women, Miss Lucia Ames Mead, president of the Massachusetts Equal Suffrage association, declared that international decline of armed peace, as she called it, is sapping the economic life of today. This remark prompted the President of the National Woman's suffrage association, to observe that boys and girls should be taught a love of peace and not a love of fighting. Miss Mead also said that she would not let boys sing "The Army and Navy Forever." This remark was taken up immediately by Mrs. Flo Jamison Miller, who declared she believed in singing patriotic songs and believed in peace even if it was necessary to fight for it. The delegates loudly applauded this sentiment.

Addresses were made by Susan B. Anthony, May Wright Sewall, Mrs. Robert Thompson and Mrs. N. Coe Stewart.

STEAMER HELD IN QUARANTINE.

Captain and Some of the Crew Afflicted With Peculiar Malady.

New York, April 12.—A peculiar malady of which extremely high temperature seems to be the only distinguishing feature has been called to the attention of the health authorities here upon the arrival of the British steamer Osceola from River Plate, Para and Barbados. Captain McLean and three members of his crew were ill when the steamer arrived. All the sick men had exceedingly high temperatures but the physicians were unable to determine the exact nature of the illness. When it was learned that one man had died and was buried at sea, another stricken with the peculiar illness had committed suicide by jumping overboard and two others had been sent to hospitals at Barbados, it was decided to hold the Osceola at quarantine.

TRUNKS YIELD EVIDENCE.

Beef Trust Investigation May Become Wider in Scope.

Chicago, April 12.—An investigation by the federal grand jury, which is inquiring into the working methods of the alleged beef trust, of a much deeper nature and of a wider scope, it is asserted, is to result from the examination of the contents of the eight trunks taken Monday from the safety vaults in the First National bank building. When these trunks were opened it is said that the secret transactions of the Aetna Trading company, a corporation through which the secret business of the big packers was transacted, was revealed to the jurors and as a consequence many new witnesses will be subpoenaed. The trunks and contents have been impounded on an order by Judge Sanborn so that no one by legal process can obtain possession of them.

Among the names of the new witnesses subpoenaed during the day is said to be that of G. H. Godfrey, alleged secretary and treasurer of the Aetna Trading company, and R. H. Cowan, another official of the company. The initials R. H. C. appear on each of the eight trunks taken from the depository vaults and it is believed they belong to Cowan. It is asserted that Godfrey and Cowan left Chicago the day the investigation by the jury began. They have been traced to Toronto, Can., where it is said all trace of them was lost.

Delevan Frazee, manager for the National Packing company, was one of the most important witnesses before the jury during the day. He was on the stand for nearly two hours.

Another witness who testified was J. A. Howard, connected with a New York packing firm.

\$100 Reward, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution as assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CLENEY & Co., Toledo, O. Sold by all Druggists, Etc. Take Hall's Family Pills for constipation.

INVESTIGATION IS BEGUN.

Commissioner Garfield Starts Inquiry Into Standard Oil Company.

Topeka, Kan., April 12.—James R. Garfield, commissioner of corporations, started his work of investigating the Standard Oil company in Kansas during the day. Three special agents of the department are here with Mr. Garfield. They are going through the records in the offices of the secretary of state, gathering data regarding the various oil companies doing business in the state. Charles Earl, one of the agents, held a conference with Governor Hoch during the day, at which various methods for securing information were touched upon.

Commissioner Garfield and United States Attorney Dean will also hold a prolonged conference. The federal grand jury is in session.

It Cures the Liquor Habit

Orrine is the only perfectly successful cure for the liquor habit the world has ever known. It is better than institutes or sanitariums, because it is used at home and does not interfere with the daily work; better than will-power because it never fails. It strengthens the nerves and gives good appetite, regulates digestion and makes you sleep like a child.

Orrine No. 1 will cure the hardest drinker and destroy his craving for drink without his knowledge, as it can be given secretly in tea, coffee or food. Orrine No. 2, in pill form, is for those who wish to be cured. The cost of either is \$1 per box. Orrine has the endorsement of ministers and physicians. It is the one remedy for the liquor habit that can be relied upon to cure at little expense and restore the drunkard to perfect vigor of manhood. Write to the Orrine Company, Inc., Washington, D. C., for book on "Drunkennes," sent free in plain envelope. Call on H. P. Dunn & Co., Central drug store, Nat'l bank block, Brainerd, Minn.
